February 13, 2014

Eastern Interconnection Planning Collaborative Planning Efforts

- **DOE grant work, Phase III**
 - At conclusion of Phase II (Dec 2012), DOE requested EIPC continue work on gas-electric coordination
 - Six Planning Coordinators chose to participate
 - MISO, PJM, ISO-NE, ISONY, Tennessee Valley Authority, Independent Electric System Operator (Ontario)
 - ATC is observing, not actively participating
 - Group has retained Levitan Associates to do analysis; developing inputs for their model
- **DOE non-grant work**
 - Involves “roll-up” model development, analysis, report, scenario analysis
 - ATC actively involved with the work

Eastern Interconnection Planning Collaborative

- **Work to date**

- EIPC model roll-up and evaluation by Planning Coordinators (2018, 2023 models)
 - Increased transfers modeled to test robustness of system
- Roll Up Report drafted, received stakeholder input
 - Final Roll Up report will be posted in next few weeks
 - Draft Roll Up report located at: http://www.eipconline.com/Non-DOE_Documents.html
 - Includes Transmission Upgrade map, detailed appendices of generation and transmission additions, and summary of incremental transfer capabilities
- EIPC Webinar on Roll-Up Case report and possible scenarios held December 13, 2013

Eastern Interconnection Planning Collaborative

- **Upcoming analysis**

- Scenario analysis: up to three scenarios determined by EIPC with input from stakeholders
- EIPC posted scenario guidelines, sample scenarios on web site:
