

2016 10-Year Assessment Projects PLANNING ZONE 3

Currently, ATC owns or operates transmission facilities in Wisconsin, Illinois, Minnesota, and the Upper Peninsula of Michigan. Facilities include:
* Approximately 9440 miles of transmission lines
* 96 wholly owned substations
* 419 jointly owned substations
* ATC offices in Madison, Cottage Grove, Pewaukee, DePere, and Kingsford, MI

The information presented in this map document is advisory and is intended for reference purposes only. American Transmission Company owned and operated facility locations are approximate. Depending on the status of the projects shown, the transmission line additions may be for illustrative purposes only and may not reflect the actual routes.

System Solutions Key

SUBSTATION KEY		TRANSMISSION LINE KEY		EXISTING TRANSMISSION LINES KEY	
SS New substation	Supports transmission system expansion	Orange line 345-kV transmission line	Blue line 115-, 138- or 161-kV transmission line	Green line 69 kV	Purple line 161 kV
SM Substation modifications	Upgrades equipment ratings to avert facility overloads	Green line 69-kV transmission line	Blue dashed line Rebuilt 115- or 138-kV transmission line	Blue line 115 kV	Yellow line 230 kV
T Transformer	Supports local growth and improves voltage levels	Green dashed line Rebuilt 69-kV transmission line	Blue circle 115- or 138-kV transmission line rating upgrade	Black line 138 kV	Pink line 345 kV
C Capacitor bank or reactor	Relieves low voltages or high voltages	Green dotted line 69-kV transmission line rating upgrade			
T-D T-D interconnection	Supports local growth
