

Eastern Interconnection Planning Collaborative

Eastern Interconnection Planning Collaborative

Interested EIPC Stakeholders,

As follow-up to the webinar discussion last week, the EIPC will host two conference calls this week to help finalize the Stakeholder Steering Committee formation and selection process. We have requested that each sector appoint one or two spokespersons to participate on the calls, but all interested stakeholders are invited to join. Please let Catherine Morris (cmorris@keystone.org) and David Whiteley (d.a.whiteley@att.net) know who plans to speak.

Attached is the EIPC compromise alternative as the starting place for discussions. It builds on the EIPC straw proposal going into the St. Louis meeting, the EISPC proposal received Sun., May 9th, and comments received over the past several weeks. Other materials can be found at: <http://eipconline.com> by this afternoon.

The schedule and call-in information is:

Wed., May 12, 9:00 – 11:00 AM EDT

Thurs. May 13, 1:00 – 3:00 PM EDT

Dial: 1-800-974-2164

Passcode: 825-6616#

Please contact David Whiteley d.a.whiteley@att.net with questions.
